

# Rouhollah Amini

## Web Designer / Developer

### About me

I am Rouhollah Amini, a passionate developer born on 24 November 1998 with a deep love for technology and programming. Although most of my learning journey has been self-taught, I have acquired significant skills in web design and development. My strong problem-solving abilities and innovative mindset have made me a dedicated and capable individual in this field.

In addition to hands-on experience in designing WordPress websites and managing web projects, I have independently explored technologies such as PHP, Laravel, and Python. My proficiency in UI/UX design principles has also enabled me to create projects that are both visually appealing and highly functional.

My goal is to grow my skills in a professional and challenging environment, where I can contribute to solving complex problems and adding value as part of a successful
